Attention: Mr. Edward F. Mussler, III, P.E.

Reference: **Request for Extension of Operating Permit**  
Lincoln County Landfill  
Crouse, North Carolina  
S&ME Project No. 1356-03-255B

Dear Mr. Mussler:

On behalf of Lincoln County, S&ME, Inc. presents this request for an extension of the Operating Permit for the above referenced Municipal Solid Waste (MSW) Landfill. The current Operating Permit for the facility (Permit Number 55-03) lapsed in April, 2006. Lincoln County and S&ME anticipated that a Certification Report would have been submitted by April, 2006 for Phase III, however a few contractor communication issues have delayed construction. The MSW Landfill has sufficient capacity remaining to continue operating until August 2006. As a result, Lincoln County requests authorization to continue operating the MSW Landfill under the existing approved plan. Please note that a completed Certification Report will be submitted shortly in order to obtain a Permit to Operate Phase III of the MSW Landfill. If you should have any questions or need additional information pertaining to this request, please do not hesitate to contact us at your convenience.

Sincerely,  
S&ME, Inc.
